

Create Variable

What Type of Variable Do You Want To Create:

A Range Variable Based on the Value of 1 Variable

A Yes/No Flag based on the Value of 1 Variable

Custom Conditions

**Example:**

AGEGRP1 (Age Group) has values that are determined by a single variable (AGE).

IF Age is between 18 and 29, then AGEGRP1 = "18-29"

IF Age is between 30 and 49, then AGEGRP1 = "30-49"

ELSE AGEGRP1 = ">49"
